### SUMMARY

Fullstack Developer building fast, reliable, and scalable web applications with **React.js**, **Next.js**, and **TypeScript**, backed by clean **Node.js** / **Express.js** APIs and well-structured databases. Experienced across multi-tenant SaaS, e-commerce, and data-driven dashboards serving **2,000+ daily users**, with production work spanning secure authentication, REST API integration, and third-party service integrations (payment, ERP, WhatsApp, biometric). Cut backend query time from **5 minutes to 100ms** and raised product-match accuracy from **70% to 95%**. Focused on clean, maintainable code and long-term scalability. Open to remote roles.
